# Framed Prints

Extremely versatile and one of the most popular of our frames. Almost any size or shape of print can be framed using our professional framing service. All prints are printed on professional archival Kodak photographic paper, heat sealed onto card which can then either be laminated and framed glass free or mounted and framed behind glass.

Unmounted prints are either gloss or matt laminated

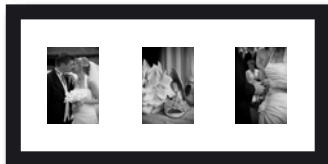

Card mounts are custom made and come in a wide range of colours and sizes. Normally 2-3"

The mount overlaps the print by 1/4"

A print can be double or triple mounted

Mounted prints are framed behind glass

*The possibilities are endless*

The most popular shapes of frame available:

**Square** both sides are equal i.e. 5" x 5"

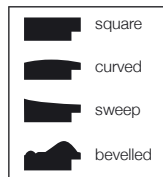

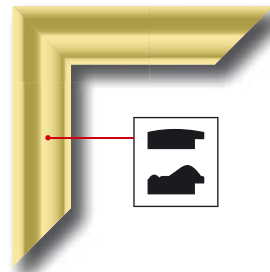

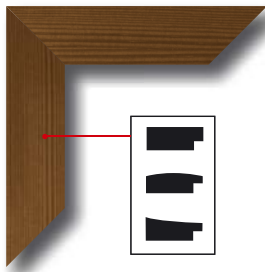

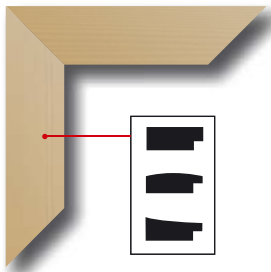

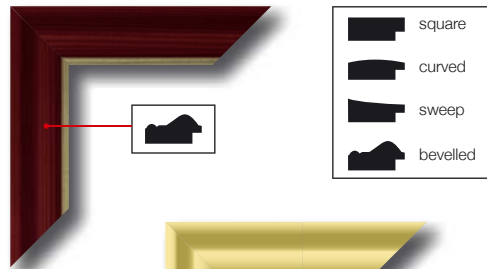

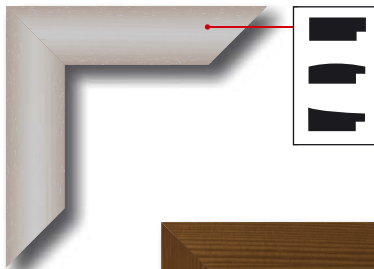

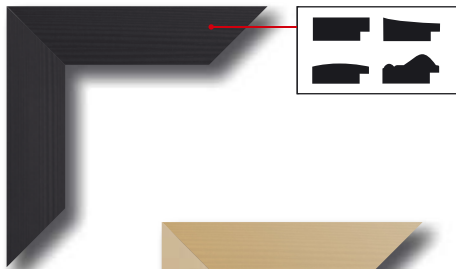

**4 x 5** one side is 4/5 smaller than the other i.e. 12" x 10"

**2 x 3** one side is 2/3 smaller than the other i.e. 15" x 10"
